

DiTEMP

Digital Transformation and Employability

Acquiring transversal competences

in curricular education

Co-funded by the Erasmus+ Programme of the European Union

The DiTEMP project provides a model of intervention, completed with tools, to integrate important and critical aspects of Digital transformation into curricular education in Higher education, promoting this way students' employability. The project focuses on university teachers and students to support awareness and readiness to a digital-driven market of future graduates.

The project is a European project co-funded by the Erasmus+ Programme of the European Union.

WE LAUNCHED A YOUTUBE CHANNEL

Subscribe and watch our webinars

We are delighted to announce our [YouTube channel](#). There you can watch our dedicated webinars that will help you get more familiar with our tools and aspects.

Webinars are free, covering a variety on topics related to the interlink between building personal capacities and using the right digital tools.

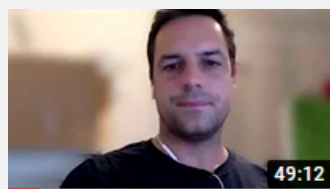

- The entrepreneurial attitude in the classroom
- The digitalization of teaching
- Big Data Analytics and their use on universities

These are some of the interesting topics that you will find on the DiTEMP YouTube Channel, and you are welcome to follow us.

Either you are a teacher, a student, a career counsellor or just you want to explore new paths of knowledge, our webinars are there for you.

Our goal is to deliver the appropriate elements of knowledge so people can get involved easily on the use of new technologies in work or everyday life.

In a few words, with these webinars we aim to help you learn more about digital competence.
